

MAINE CAREER CATALYST

FIND YOUR PATH. BUILD YOUR FUTURE.

Educate Maine, acting as an Intermediary Sponsor of registered apprenticeships, brings together employers, educational providers, and youth-serving organizations across the state to create opportunities for youth to apprentice in high-wage, high-growth, in-demand occupations. Registered apprenticeship programs provide a solution to both workforce and education challenges by closing the gap between knowledge learned in the classroom and skills required by employers.

5 CORE COMPONENTS OF APPRENTICESHIP

- Employer mentorship
- Structured on-the-job learning
- Related classroom instruction
- Paid job with progressive wage increases
- National occupational credential

EMPLOYERS

Provide mentorship by subject matter experts and a clearly defined structure for skill development and wage progression throughout the course of the apprenticeship.

APPRENTICES

Gain mastery in an occupation through paid on-the-job learning and related classroom instruction, and are awarded a nationally recognized credential of value in their field.

EDUCATIONAL PROVIDERS

Provide formal instruction to enhance apprentices' background knowledge in their occupation.

Benefits of Registered Apprenticeship Programs

FOR EMPLOYERS

- Higher productivity & reduced turnover
- Trained, ready-to-work candidates with consistent skillsets
- Educate Maine manages program administration

FOR EDUCATION PROVIDERS

- Introduction of more students to your school and programs
- Heightened job placement & prospects of students
- New and strengthened relationships with local employers
